EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John E. Curtin on March 17, 2005.

The application has been amended as follows:

30. (Currently Amended) A method for establishing a dedicated channel to transport IP encapsulated ATM cells from one ATM network associated with a source gateway to another ATM network associated with a destination gateway over an IP backbone network without appending a header to each formatted frame of each cell comprising:

transmitting an IP signaling message requesting an IP address of a proper destination gateway to a controller upon receipt of an ATM signaling message from an ATM end point;

receiving the IP address of the proper destination gateway from the controller;

transmitting an address registration message to the controller to register a source gateway;

exchanging set-up messages between the source gateway and the proper destination gateway to transport IP encapsulated ATM cells associated with a call; and

transmitting an open logical channel request message to the controller to request the establishment of a dedicated channel between the source gateway and the destination gateway to transport the encapsulated ATM cells.

2. The following is an examiner's statement of reasons for allowance: With respect to the limitation "without appending a header to each formatted frame of each cell," this feature distinguishes the current claimed subject matter from the prior art reference Keshav (US 5,623,605) which appends an intermediate data packet header to the cell frame (Box 730 in Figure 7 and column 12, lines 31+).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melvin Marcelo whose telephone number is 571-272-3125. The examiner can normally be reached on Mon-Fri 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hassan Kizou can be reached on 571-272-3088. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
